DETAILED ACTION

Claims 1-10 are pending in this application.

Action Summary

1. The rejection of claims 1-10 under 35 U.S.C. 102(e) as being anticipated by Lezdey et al. is being maintained for the reasons stated in the previous office action.

Response to Arguments

2. Applicant's arguments filed September 4, 2002 have been fully considered but they are not persuasive.

Applicants argue that the prior art of Lezdey et al. should not be used as prior art against the claimed invention because the claimed invention was conceived and reduced to practice before the filing date of the prior art. Applicants subsequently filed a Declaration Under Rule 1.131. Examiner of record has reviewed the declaration as filed and is not convinced that the declaration shows what applicant claims. It is not clear to the examiner what exactly is in the composition from the declaration. Examiner does not see the animal model being protected from photoaging, sunburn and skin cancer by applying the serine protease inhibitor composition.

Oath/Declaration

3. In view of the papers filed September 4, 2002, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a). The inventorship of this application has been changed by the addition of Yann Echelard as a co-inventor.

Art Unit: 1616

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of the file jacket and PTO PALM data to reflect the inventorship as corrected.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
